## Chapter 1. Sum up

# Chapter 2. Subtract

## What is subtraction of numbers?

Here you will learn what is subtraction

To perform the task of subtraction, first you need to know what subtraction is. The term "subtraction" represents a mathematical operation. Subtraction is a process, an action that you perform using numbers. Subtraction allows you to find the difference between 2 numbers.

You use the minus (-) button to express the subtraction operation in the app.

In the subtraction process, you take a number and reduce it to a smaller number. That is, we take away one number from another.

## How to subtract numbers

Here you will find instructions for using subtraction feature of JPS Calculator

To subtract numbers, you must know what is subtraction is

1. Enter the first number
2. Choose the (-) button
3. Enter the second number
4. Click on the (=) button

The result from subtraction is displayed

you want to subtract 2 from 3. First enter the number 3. Click on the (-) button. Enter the number 2. Click on the (=) number to get your answer

## Chapter 3. Multiply

## Chapter 4. Divide
